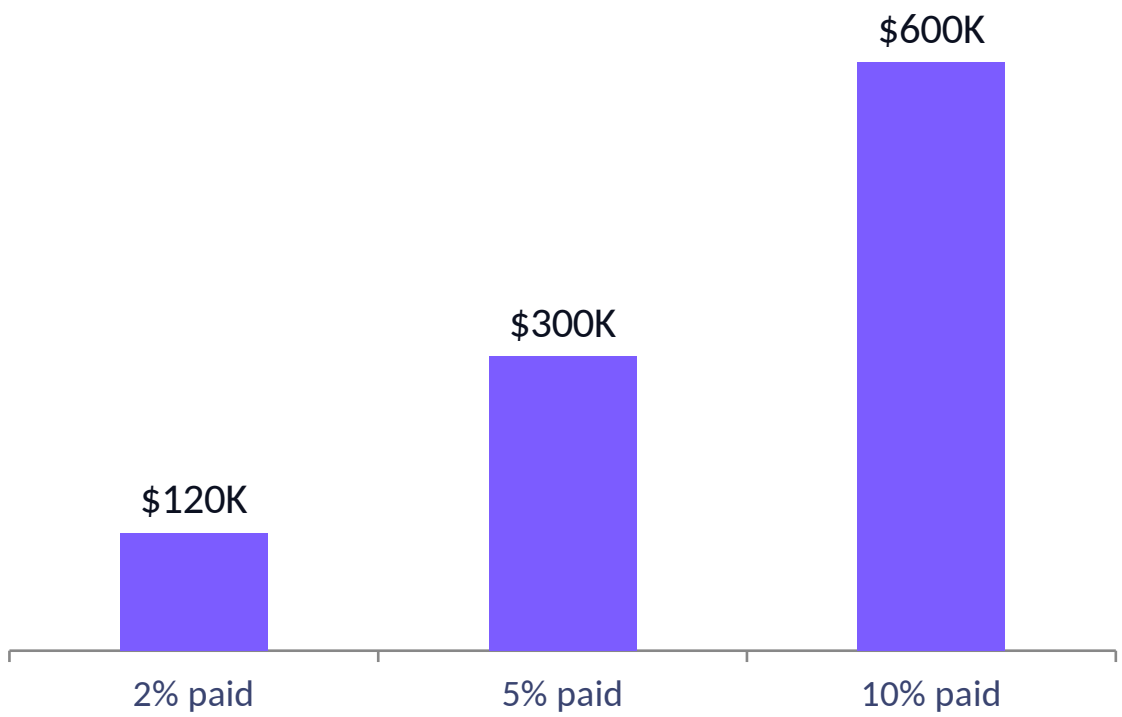
Unit economics: illustrative 100,000-user scenario



CAC / install	Cost per paying user	Payback	LTV / CAC
$0.50	$10	2 mo	6x
$2	$40	8 mo	1.6x
$5	$100	20 mo	0.6x

At 5% conversion, 8% monthly churn. Our first experiment targets $0.50 per install; $2 to $5 is the conservative range to plan against.

Operating cost $24K to $96K a year, acquisition about $50K at $0.50. Surplus before fees, taxes and refunds: roughly $154K to $226K. Scenarios, not forecasts.
