Five phases, capital-efficient

1

Phase 1

Core platform and two assistants. Built; controlled testing.

2

Phase 2

Wellness marketplace launch.

3

Phase 3

Deeper personalization.

4

Phase 4

Specialist tools at scale.

5

Phase 5

Full super-app ecosystem.

Assistant strategy: acquire users through focused assistants (two live, up to ten planned) and retain them in one shared experience, with one engine, profile and specialist layer behind all of them.
